SCIENCE FOR INDUSTRY

# BROCHURE 2027

# What is Science for Industry?

Science for Industry is the global epicenter where science and industry converge to transform knowledge into real innovation. It brings together knowledge-generating organizations, investors specializing in deep science, and industry leaders, from multinationals to SMEs and startups, both nationally and internationally.

S4i is more than just an event: it's a vibrant open innovation ecosystem that drives technology transfer to the productive sector. We connect scientific talent with visionary companies to integrate Deep Science-based solutions into industrial products and processes. Through this synergy, we consolidate an open innovation ecosystem that:

- Boost the competitiveness of companies by incorporating scientific advances
- Turn research into real impact, transforming innovations into market-applicable solutions

# Who organizes it?

The Autonomous University of Madrid leads the organization of S4i. With a clear vision and a firm commitment, it promotes a dynamic ecosystem that connects scientific knowledge with the industrial sector, accelerating technology transfer and fostering strategic synergies between researchers, companies, and investors.

# How will S4i 2027 be?

## A GLOBAL EVENT DRIVING INNOVATION

Science for Industry (S4i) is the global event that drives innovation by connecting science with industry. It brings together universities, research centers, companies, and investors to accelerate technology transfer and the development of Deep Science solutions. With an international focus, S4i positions Madrid as a key hub for innovation and scientific entrepreneurship.

### PLENARY AGENDA

The S4i plenary sessions bring together global leaders in innovation, science, and industry to address the challenges and opportunities of Deep Science.

Renowned experts will share their vision on technological trends, success stories, and strategies to boost knowledge transfer. These sessions provide an inspiring space and a key forum for debate on the future of innovation.

### EXHIBITION AREA

The S4i exhibition area is the meeting point where universities, research centers, startups, and companies showcase their most disruptive innovations. Here, attendees can discover cutting-edge technologies, connect with potential strategic partners, and explore collaboration opportunities in a dynamic and global environment.

### INNOVATION JOURNEY

The S4i Innovation Journeys are the key link connecting companies, investors, and researchers with disruptive technologies and Deep Science solutions. Through guided tours and strategic meetings, participants gain access to scientific advances with high potential for industrial application, facilitating technology transfer and the creation of new business opportunities. Each journey focuses on a specific sector and is led by expert professors and researchers.

# How will S4i 2027 be?

## INDUSTRY CORNER

The S4i Industry Corner is the space where leading companies present their technological challenges and explore innovative solutions together with researchers and Deep Science startups. A setting that focuses on the needs of companies and includes an exclusive space for dialogue and networking.

## INVESTOR'S CLUB

The S4i Investor's Club is the meeting point between investors and the most promising Deep Science technologies, featuring a pitch stage and a dedicated networking zone.

At the S4i Spin-offs Pitches, the most innovative Deep Science spin-offs present their projects to investors, companies, and industry experts. It is a dynamic space where they showcase the potential of their solutions, seeking funding, strategic partnerships, and opportunities for market scaling.

Here, startups, spin-offs, and research centers can also present their projects to investment funds, venture capitalists, and corporate investors seeking funding and scalability.

It is a key space to drive technology transfer to the market.
